

Sample Submission for Urban IPM Credit

To receive the Sample Submission credit for Urban IPM certification, you need to submit a plant disease sample, insect sample and plant ID sample. The samples should be actual diagnostic samples. Each must be submitted correctly in regards to:

- Amount/size of sample or plant/insect parts

- Packaging different types of samples

- Shipping

- Quality/clarity of background information – using appropriate form for each

You can go to this website and review the presentations “Submitting Diagnostic Samples” and “Photography for Diagnosis”. Photographs are not required.
